Luxaflex®

The Art of Window Styling

Luxaflex® Horizontale Jaloezieën Introductie 020

Venetian Blinds

Step plan

1 Choose your slat size

Select your slat size depending on the size of your window, privacy, light needs or design preference.

16 mm

25 mm

The 16 & 25 mm slat style has an elegant modern look that compliments smaller windows.

35 mm

Choose the 35 mm slat style for a clean modern look to perfectly frame medium and larger windows.

50 mm

70 mm

Choose the distinctive 50 & 70 mm slat size to balance out the scale of large windows.

2 Select your Colour and Design

Our new collection includes trend-setting colours, designs and elegant personalisation options to make your style statement in every window of your home. From the most subtle matt neutrals and pastels, to lively colours and tactile finishes - there's a perfect look for every room and style.

Colour & Design highlights - Pure Sense colours

Bring home design style with new colours and looks

Precisely managing the light and your privacy with timeless style, is the signature of the Luxaflex® Venetian Blind 'Pure Sense' range. On trend subtle colours with a beautiful super matt finish or soft glow finish, some even feature a unique two-tone slat colour. The lighter colour enhances the daylight and the darker tone creates a cosy feel especially in the evening when the blinds are tilted. A natural feature of the Pure Sense finish is that it attracts less dust. See the Pure Sense colours on pages 37-47.
